

Dear Friend of Monroe,

In this issue of Inside TMI we will tell you how your donation is helping us accomplish more in the consciousness field. Our 2017 Annual Report is attached (click on the image for a full copy). In it you will learn about our accomplishments and plans for the future.

All made possible with your support!

Summer is a great time to catch up on reading. It's hard to believe, but next year will be the 47th anniversary of the publication of **Journeys Out of the Body**, Robert Monroe's bestselling and now-classic book on OBEs. His groundbreaking book, **Far Journeys**, has been out for 33 years, and **Ultimate Journey** is in its 24th year! If you haven't read these books yet, grab one and curl up on your couch! You'll be swept away, enthralled, and inspired.

TMI is changing and growing. We are rededicating our commitment to **research** and **new program development**. If you want to know more about the specific plans for 2019 and beyond, just email me at info@monroeinstitute.org.

2017 Annual Report

Thank you for taking this journey with us!

It is because of friends like you that we are able to do so much. TMI operates on a conservative budget. We rely on donations and memberships to help us grow. Your gift is especially appreciated and we are so very grateful to you. Thank you.

Happy journeys to all of you on behalf of the TMI family of staff, trainers, and the board!

With warmest wishes,

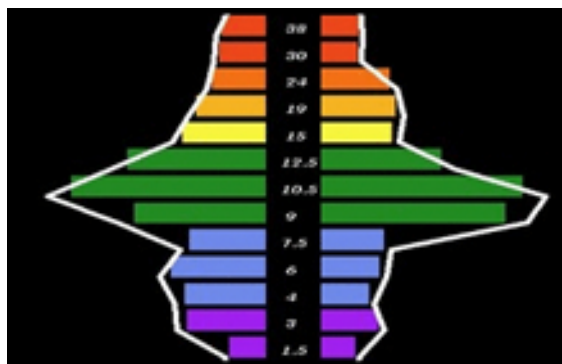

Nancy H. McMoneagle
President & Executive Director

TMI Staff Spotlight

Leslie France has been with TMI for 16 years, first from 1986 to 1993, and then from 2009 to the present. She has worn several hats, including Gateway Outreach coordinator, director of the Professional Division, publications editor, speakers bureau member, Professional Seminar coordinator, website content editor, and AGC coordinator. Her current title is Projects Manager. "I love to write," she says, "and get to do much of it in my current position." Leslie grew up in New Jersey, then lived in New York state, Boston, Massachusetts, and Denver, Colorado, before moving to Virginia to work with The Monroe Institute. She has taken multiple TMI programs. "This is my spirit home!" When not at TMI Leslie loves reading, cat "whispering," and doing group energy work with a circle of friends.

Research: Your Donations at Work!

In addition to the research that Ross Dunseath has been conducting, TMI is embarking on a redesign of our research division. We recently advertised for a Post Doctoral Candidate to work on several exciting projects this year.

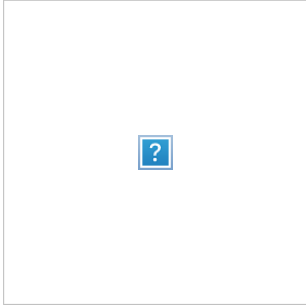

We expect to complete the EEG/SAM lab study and present the findings for publication this year. We're working on another project, the "MC2 PK" pilot study, and are evaluating results from the 2017 *Journeys to Happiness* and *Discovery* programs. In 2018 we addressed the question, "Can the mind operate independently of the brain?" by testing participants in our June *Discovery* program and we will be presenting the results by year-end.

Internships

Quinn Averitt is our summer research intern. Born and raised in Nelson County, VA, Quinn just graduated high school with an "A" average. His

life dream is to work in the field of biotech or space exploration. This summer Quinn is learning about and supporting SAM and MindMirror® studies, alongside Research Coordinator, Ross Dunseath. Quinn plans to attend Penn State University in Fall 2018.

New Online Programs

We are excited about two new online programs that launched this year in collaboration with GlideWing Productions. [***Our Incredible Journey***](#), is a course on life, death, and beyond, developed and taught by William & Susan Buhlman. And, Marc Allen's, [***The Magical Path: Creating the Life of Your Dreams and a World That Works for All***](#), guides you beyond old blind spots and blockages, and into a brand new phase of your life. Look for additional new online programs in the coming months.

New Air Conditioning Unit for Nancy Penn Center

The Nancy Penn Center air conditioner finally died after 16 years, and a few near death experiences! We hope it enjoys a wonderful afterlife!
